Subject: Washington Post Information Request

Dear Public Information Officer,

I am a reporter with the Washington Post and am writing to follow-up on a request for information we sent on Aug. 1 to your media relations staff. We've received no responses to our request for information.

We are forwarding the original request, copied below, to you and ask that it be handled as a formal request under the North Carolina Public Records Law. As you will see, the request is a mix of public records and simple yes/no questions about Winston-Salem State University. We believe most of the information sought can be readily provided by officials with your student health center.

We are willing to work with you to help facilitate responses, so please do not hesitate to contact us with any questions or concerns. We will follow up with a phone call next week and look forward to a response within the statutorily provided limit. Please respond to studenthealth@washpost.com

If you are not responsible for these requests, please connect us with the proper individual.

Thank you,

Jenn Abelson
